

# Voyageur Aviation Dual Credit Plane Kit 2021

## About Voyageur Aviation

Voyageur Aviation is a wholly-owned subsidiary of Chorus Aviation Inc. and is headquartered in North Bay, ON. Established in 1968, Voyageur started out as a flight school and turned into an industry leader in the regional aircraft market with operations and customers supported globally.

Through our different business units Voyageur offers a full suite of services to our customers. We provide aircraft charter and global ACMI operations, maintenance repair and overhaul, design engineering services, aircraft recycling and part sales, logistics support as well as aircraft sales and leasing.

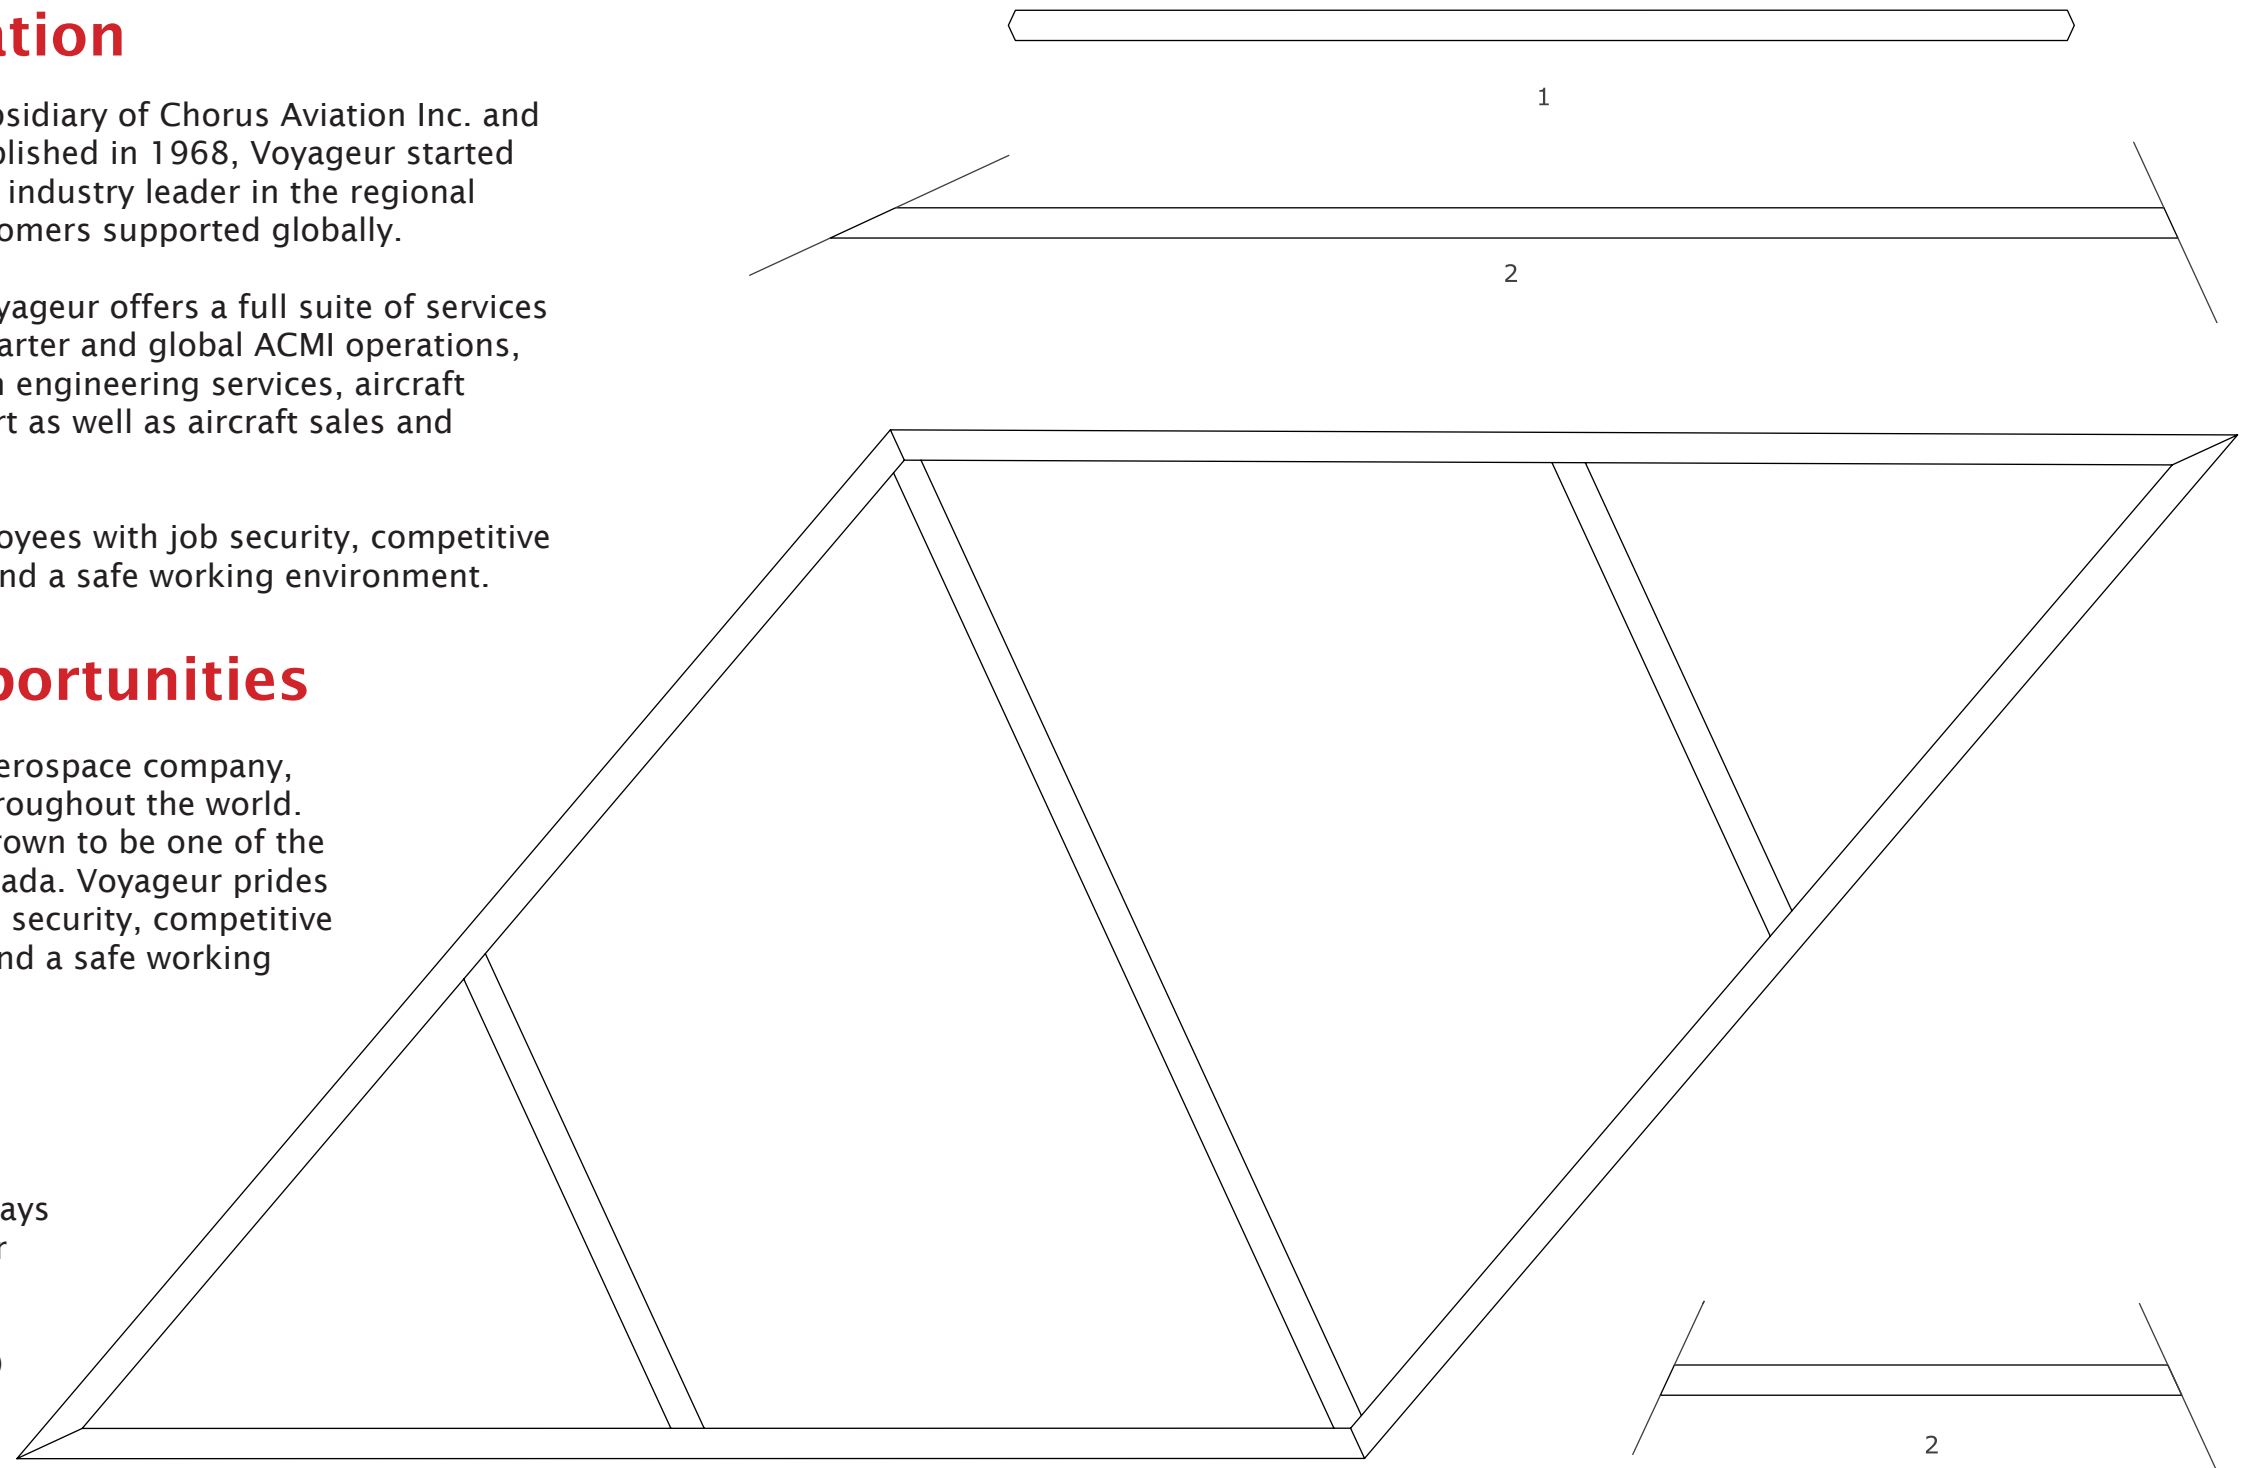

Voyageur prides itself in providing employees with job security, competitive wages, health and retirement benefits, and a safe working environment.

## Voyageur Career Opportunities

Voyageur is an innovative aviation and aerospace company, conducting specialized air operations throughout the world. Established in 1968, the company has grown to be one of the largest regional aircraft operators in Canada. Voyageur prides itself in providing its employees with job security, competitive wages, health and retirement benefits, and a safe working environment.

## Operations

Voyageur operates a mix of specialty operations throughout the world. Mainstays of the operation include specialty charter and air ambulance. Flight Operations are supported by our regional aircraft maintenance, repair, and overhaul (MRO) facility at North Bay, Ontario.

## Aviation Fundamentals

Dual Credits: two high school credits and two college courses

### INTRODUCTION TO AVIATION

**TYE4T (College Course: PAV102)**

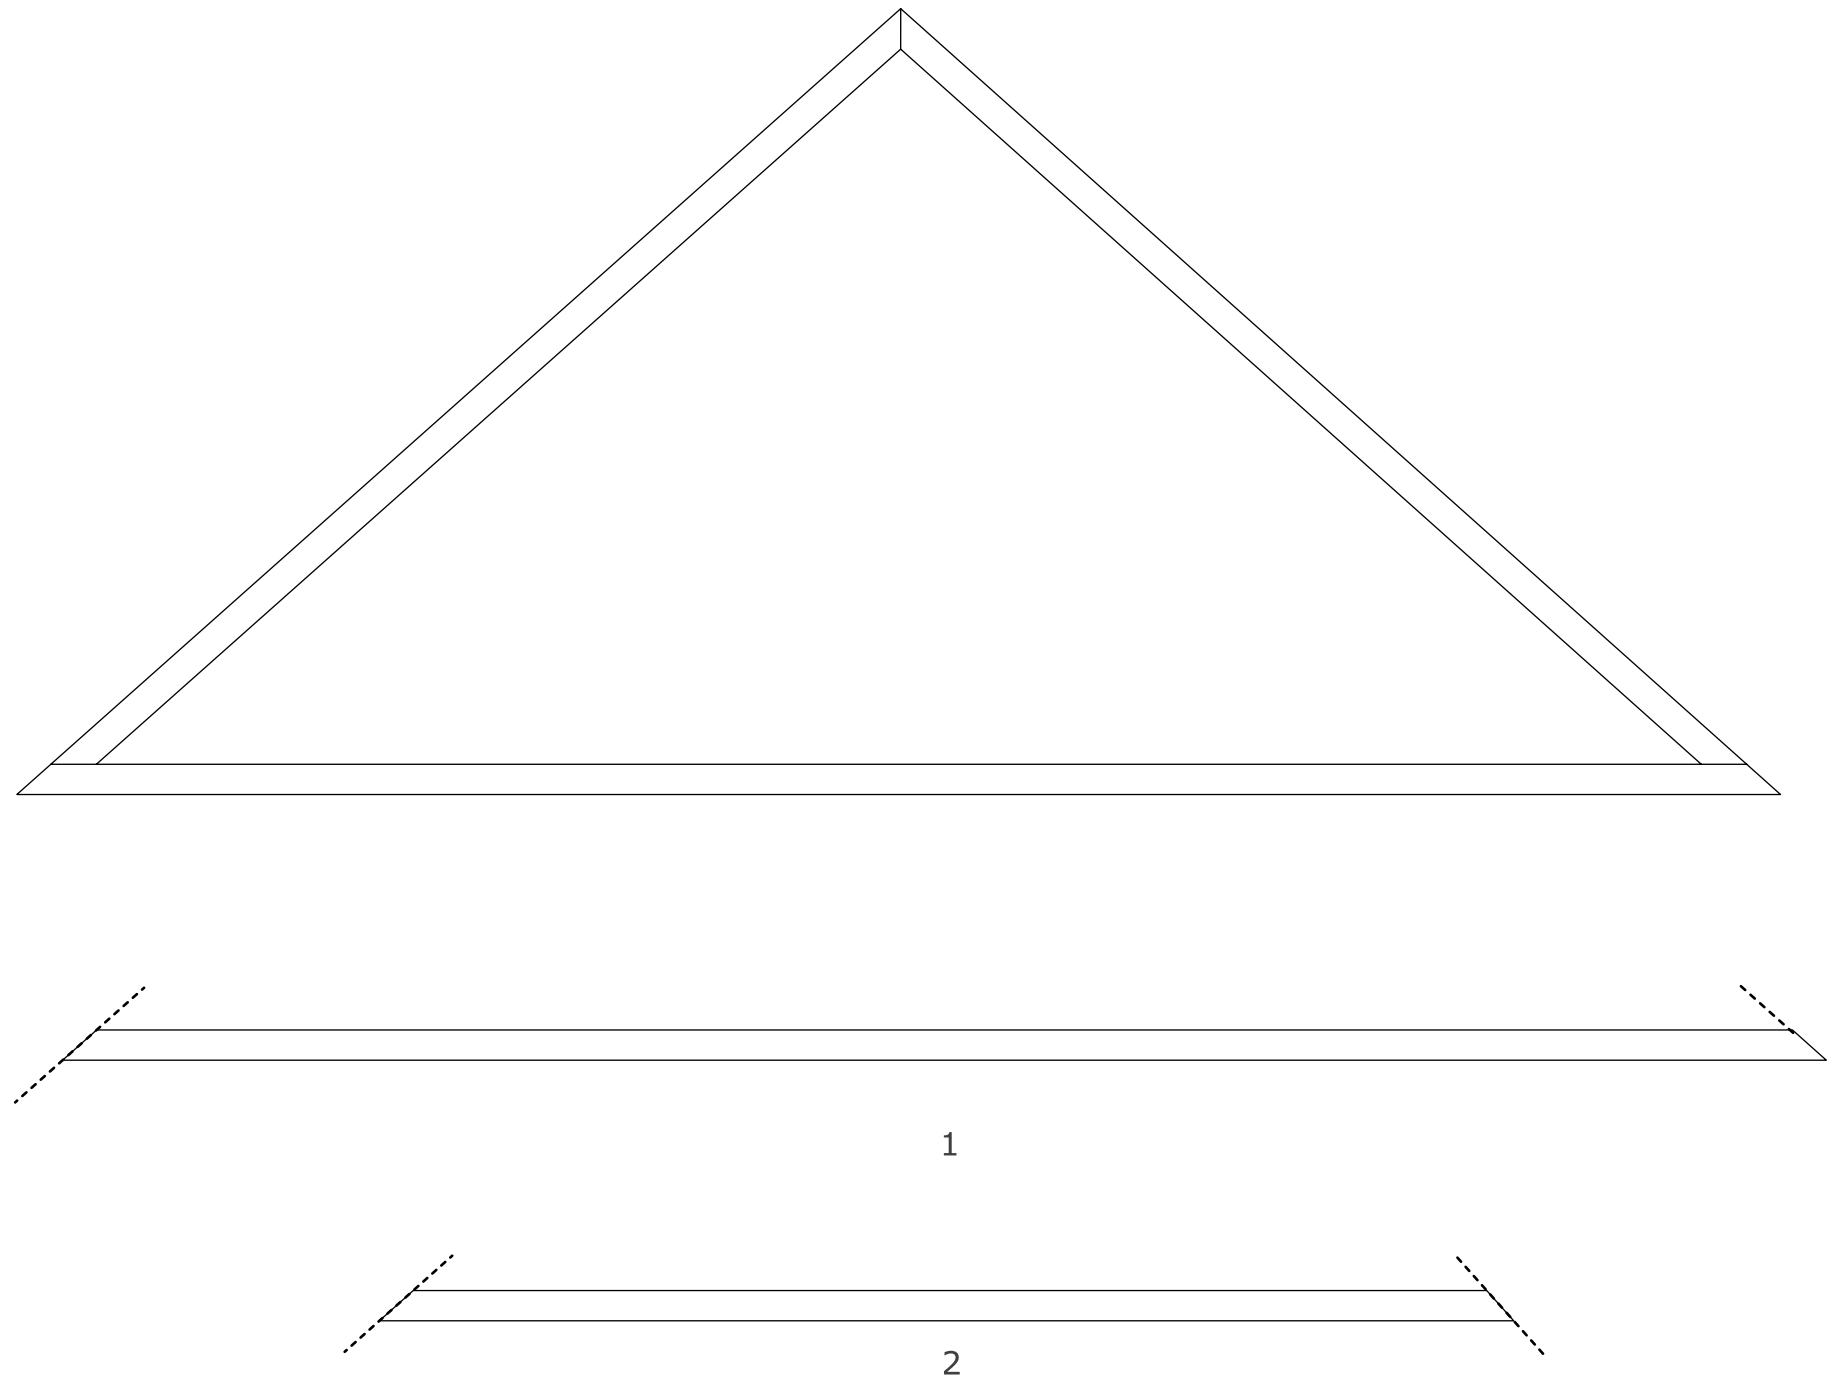

Students will be introduced to concepts pertaining to the study of aviation. Topics include history of aviation; theory of flight; types and classification of aircraft; aerodrome signs and markings; aircraft power plants; fuels, fluids, and lubricants; personal licensing and training - Chapter 566; and careers in aviation.

### BASIC TOOLS AND HAND SKILLS

**TZE4T (College Course: PAV110)**

This course introduces the student to a variety of shop and hands tools, emphasizing safe operation and handling. Hand skills will be developed through the completion of practical projects with close oversight.

Note: Tuition, materials, equipment and transportation fees

## Learn from experienced professors with an emphasis on practical training
